

Kaunas Concert Centre International Design Contest

Question and Answer Log Vol.14
Date of issue: 11 August 2017

Question number	Enquiry	Response	Date
Note #1	<p>Question and Answer Process All questions asked by email (kaunasconcertcentre@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Monday will be collated and answered in the Question and Answer log published on a Wednesday and all questions asked by email (kaunasconcertcentre@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Wednesday will be collated and answered in the Question and Answer log published on Friday.</p>		
Note #2	<p>Clarification on CAD Plans The CAD Plans issued were prepared when the site was selected as the site for the new Concert Centre Project. Any illustration of built or landscape form or access routes in to the site and street level parking provision, are illustrative only.</p> <p>As noted in Q&A Log Vol. 2, Note 2: Please note there is an updated version of Annex X6 - CAD drawing of competition site and surrounding area on the Downloads page of the competition website. This supplements the previous version provided. Please use the updated version of Annex X6 when preparing your submission.</p>		
Note #3	<p>We have corrected a grammatical mistake in the Lithuanian version of the Competition Conditions, page 41, "Submission Deadline" section. It now states the following: "The deadline for submissions is 14:00 GMT+3 6 September 2017. Submissions received after the deadline will not be opened." This mistake only occurred in the Lithuanian version of the document. The English version remains as it was.</p>		
Note #4	<p>An English translation has been provided of the key for Annex X6 (CAD drawing of the competition site and surrounding area (updated)). This can be found in the Downloads section of the competition website and on CPP IS.</p>		
Note #5	<p>The CAD plan (Annex X6) issued for the contest illustrates siting, vehicular access, parking and infrastructure requirements based on the previous contest held to select the site. As noted on page 61 of the Competition Conditions (English Version) 'Infrastructure can be relocated based on the results of this competition'. This applies also to the siting of the building and vehicular and pedestrian access in and out of the site, as well as surface parking arrangements. The 15 metre zone to H. and O. Minkovskij Street is to be protected for municipal carriageway and pavement/sidewalk works, and therefore should not be built within, other than to create access in and out of the site. However contestants can show a schematic design for these carriageway and sidewalk works for the purposes of their competition entry. Any existing infrastructure that crosses the site, and that must remain in place following the construction of the Concert Centre, is also clearly explained on page 61 of the Competition Conditions document (English Version).</p>		
Note #6	<p>A wider area CAD plan has been provided as Additional Annex X11 on the Downloads section of the Competition Website and CPP IS.</p> <p>Please note these files are the property and copyright of Kaunas City Municipality Administration. These files are provided for the purposes of preparing an entry to the Kaunas M.K. Čiurlionis Concert Centre International Design Contest only. The files should not be used for any other purpose, or distributed more widely.</p>		
Note #7	<p>Clarification note on embankment to river's edge along site boundary</p> <p>Further to the answer supplied to Q.21 of Q&A Vol. 6 we would like to clarify the response over the location of the embankment to the river's edge for the project. Although it is foreseen/anticipated that the embankment will be placed along the 'Planned site area boundary' (as indicated on the Competition Area diagram on page 28 of the Competition Conditions Document) this is provided for guidance only. Competitors may suggest alternative and appropriate solutions, and locations, that best fit their design.</p>		

<p>Note #8</p>	<p>Amendment of Annex X2 (English version only)</p> <p>A mistake in Annex X2 (English version only) item 6 was noticed. It has been amended and now states the following: All the partners in the joint venture shall meet the requirements of Clauses 1-3. (to be completed where the participation is based on a joint venture agreement).</p> <p>The updated Annex X2 is now uploaded to competition webpage and CPP IS.</p> <p>The Lithuanian version remains as it is.</p>		
<p>1</p>	<p>Is information about the soil type present on the site at embankment available?</p>	<p>There is no additional information available</p>	<p>08-Aug-17</p>
<p>2</p>	<p>We are gonna take part in the competition by a group of joint venture. After reading your Overview Guidelines and Q&A, I still have a confusion of regulation NO.4 . (See attachment QAvol14_Q2)</p> <p>It mentions supplier should deliver such professional documents. But I'm not clear what kind of documents I should submit. One contract processed by a licensed architect in our group, which matches the requirement in Regulation NO.4 ? Could you please specify what kind of documents I should prepare to deliver? Could you please give me some examples?</p>	<p>Proof of qualification is only required from the cometitors who place I-III, and will be requested after the evaluation process. In case of success you would have to provide the documents listed in Annex X5 column "Documents proving the conformity to the qualification requirements"</p> <p>Please also refer to Q&A Logs Vol.1 Q8 and Vol.11 Q11, and pages 88 - 90 of the Competition Conditions (English Version) for Definitions and Interpretation.</p>	<p>08-Aug-17</p>
<p>3</p>	<p>We registered today for the competition. On the website it stated that the deadline was 6th of September. Are we still allowed to participate?</p>	<p>Yes. Registration is open right up until the competition deadline of 14:00 GMT+3 on 6 September 2017.</p>	<p>09-Aug-17</p>
