

## Science Island International Design Contest

Question and Answer Log Vol. 7  
Date of issue: 22 July 2016

Question number	Enquiry	Response	Date
Note	<b><u>Question and Answer Process</u></b> <b><i>All questions asked by email (scienceisland@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Monday will be collated and answered in the Question and Answer log published on a Wednesday and all questions asked by email (scienceisland@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Wednesday will be collated and answered in the Question and Answer log published on Friday.</i></b>		
1	Regarding the Urban Integration Plan, are there any specific requirements to its content i.e. landscaping, road/access network, etc? Will it be limited by one Board as prescribed - Board 1: Cityscape ?	According to the Urban Integration Plan, Nemunas Island should be developed as an area for public needs. No specific requirements are relevant at this stage. Island development ideas should be presented in Board 1.	18-Jul-16
2	Is there a tree survey available?	No	18-Jul-16
3	Is it possible to get the legend on the city masterplan translated?	No additional information is available	18-Jul-16
4	Is it possible to get information on the wind directions?	Western wind prevails	18-Jul-16
5	<p>Your answers to question 1 and 2 of Volume 2 raised some more questions:</p> <p>5a. Bearing in mind that there are no specific qualifications or licenses in the UK allowing to specifically design "large scale public projects of exceptional significance", could you please confirm if an ARB registered practice qualifies?</p> <p>5b. As a relatively new practice we have not completed any "large scale public projects of exceptional significance", however, the Practice director has a substantial experience in large-scale mixed-use projects gained prior to establishing his company. Will this satisfy the minimum requirements?</p> <p>5c. In "large scale public projects of exceptional significance", do projects need to be designed or built projects? privately or public financed?</p>	<p>5a. Yes. See response to Q1-3 in Q&amp;A log vol. 2.</p> <p>5b. See response to 5a.</p> <p>5c. Minimum qualification requirements do not ask for the competitors to have any specific experience</p>	18-Jul-16
6	<p>Please see attached diagram "QA vol7 Q6"</p> <p>6a: May I obtain photos from these views around the site?</p> <p>6b: What is height of the building?</p>	<p>6a: No additional information is available</p> <p>6b: This building is foreseen to be demolished before the construction of Science Island</p>	19-Jul-16
7	<p>Please clarify:</p> <p>In the competition conditions, page 68, you request, both on paper and in digital form:</p> <ul style="list-style-type: none"> <li>- Two landscape .jpeg images at 300dpi, 1600px wide by 1200px high that best exemplify your design proposal</li> <li>- A maximum 500-word description of your design concept with a single image that best exemplifies the quality of your design. This should be submitted in a PDF format, the file should not exceed 2 MB.</li> </ul> <p>in the Q&amp;A vol 5 Q5 you clarify: The number of images on the Boards is to your discretion. The two images requested are a separate element of the submission, to be used for media/press purposes only.</p> <p>This is not the same request as in the competition conditions; in any case, should the images be included in one of the 6 A1 boards requested? If the images are only on two separate A4 sheets, the jury will never see them. Furthermore, we don't understand if one image or two images of the building in the landscape of the island are requested.</p> <p>Please, tell us what you desire us to do</p>	<p>Please see the four clarification notes on Q&amp;A log vol. 3.</p> <p>All clarifications and Q&amp;A responses form part of Competition Conditions. They are provided regularly to clarify, supplement and if necessary make amendments to the Competition Conditions, therefore please ensure that you take Q&amp;A responses into consideration.</p> <p>Competitors are free to include as many images on the A1 boards as they feel is necessary. The two landscape images that are requested as project element C) will be used for press/media purposes.</p>	19-Jul-16

8	<p>When comparing the provided CAD site plan with recent orthoimagery, the boundary of the island appears to be inconsistent.</p> <p>Is it permissible to locate either the building or proposed landscape elements within the areas beyond what is shown in the provided CAD drawing, realizing that these areas have a higher risk of flooding?</p> <p>See Diagram 'QA vol 7 Q8' for illustration.</p>	<p>As you can see in the flood risk map (<a href="http://mapsit.maps.arcgis.com/apps/SocialMedia/index.html?appid=4da009f97bec4571bc6f3eac277c7841">http://mapsit.maps.arcgis.com/apps/SocialMedia/index.html?appid=4da009f97bec4571bc6f3eac277c7841</a>) part of the island has high risk of flood. Please keep that in mind when preparing your project and choosing the location for the Centre.</p>	20-Jul-16
9	<p>Do I have to fill and send Annex X2 via email already or it must be sent with submitted proposal physically?</p>	<p>Submission requirements are detailed on pages 66 - 69 of the Competition Conditions. Annex X2 is to be submitted physically with the rest of the competition materials in an envelope marked as 'The Registration Details'.</p>	20-Jul-16
