

Science Island International Design Contest

Question and Answer Log Vol. 15
Date of issue: 19 August 2016

| Question number | Enquiry | Response | Date |
|-----------------|---|--|-----------|
| Note | <u>Question and Answer Process</u> <i>All questions asked by email (scienceisland@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Monday will be collated and answered in the Question and Answer log published on a Wednesday and all questions asked by email (scienceisland@malcolmreading.co.uk) and CPP IS by 4pm GMT+3 on a Wednesday will be collated and answered in the Question and Answer log published on Friday.</i> | | |
| 1 | Do the hatched dots in the adjencies diagram mean sanitation facilities? If so, is it necessary a sanitation facility on the outdoor space? | See response to Q22 in Q&A log vol. 10. | 15-Aug-16 |
| 2 | Is it necessary a sanitation facility at the hall area? | The area schedule and description of spaces is provided for guidance only. | 15-Aug-16 |
| 3 | <p>So here is our concerning of shipping six 24"x36" drawing board internationally. We've asked UPS, FedEx, DHL regarding the international shipping price and time, since it's over-sized package, it usually cost \$500-\$900 and takes 5-14 work days to ship to Lithuania, which means, for international teams, we almost lost 1-2 weeks time to develop our ideas & drawings, and it's gonna be a big cost for all the participants. I'am concerning that teams would give up their anticipation when they realize the huge cost.</p> <p>Is it possible that the competition committee can give us international competitors an submission option, that allow us to upload the digital file and pay certain amount of processing fee to help us print and mount drawing boards on you side? That would be a huge help for the international teams. We research those ground shipping service, like USPS, 2 weeks ground shipping has pretty much possibility of delay. It's probably unfair for those teams, who has shipped 2 weeks earlier, but still arrive late. So if there is a digital submission option, it would also help you get all the drawings on time.</p> | <p>Competitors are allowed to contact local printing companies that can provide printing services for them and in this way save time and shipment costs.</p> <p>See also response to Q2 in Q&A log vol. 3</p> | 16-Aug-16 |
| 4 | We would like to know if there is a possibility to build an underground parking underneath the building and if so, if there is a geotechnical study that could help us. | <p>A geotechnical study is not currently available.</p> <p>As per page 44 of the Competition Conditions, no parking is to be provided as part of the Science and Innovation Centre development other than the parking needs of disabled visitors, those arriving by coach (for example school visits) and taxi and VIP drop-off.</p> | 16-Aug-16 |
| 5 | Can we deliver our design proposals to Kaunas personally by ourselves? (Vilniaus g. 22, LT-44280 Kaunas, VšĮ Kauno architektūros ir urbanistikos ekspertų taryba) | Yes. | 16-Aug-16 |
| 6 | <p>General Territory Plan (wich we downloaded from web) doesn't include graphical information about "protected view corridors", mentioned on page 42 of Science Island Competition Conditions.</p> <p>Layouts shows only zones, but no "view corridors or rays".</p> <p>Can you clarify if there are any protected view points at the area and where they are?</p> | See response to Q4 in Q&A log vol. 12 and Q1 in Q&A log vol. 14. | 16-Aug-16 |
| 7 | Do you know, if new bridge from future Congress Hall will be for pedestrians only, or either for traffic? | Pedestrian only. | 16-Aug-16 |
| 8 | <p>May I ask about boards and documents delivery to mentioned address?</p> <p>Is it possible to bring it personally, not by post. Since there is a damage risk.</p> | See response to Q5, above. | 17-Aug-16 |
